### Germany.

A Yearly tenant must take care that he gives notice to quit his premises half a year before the time of the expiration of the current year of his tenancy. If by agreement a quarter's notice is to be sufficient, such notice must also expire with the tenancy if that is yearly. If a landlord neglects to repair the premises, according to his covenant, the tenant may maintain an action against him; but such neglect does not absolve the tenant from the payment of rent.  
 A landlord can legally dispose of goods taken under a distress for rent by appraisal, without putting them up to auction. An under-tenant, who has left the premises in arrears of rent, must pay the same to his immediate landlord.  
 A landlord, in action of ejectment, need not prove his title; it is quite sufficient to produce the counter-part of the lease; the inamoror of a stipulated part may be pleased in abatement. A landlord may take possession of the goods of his tenant's lodger which have been taken away under distress for rent; or may maintain an action for pound breach.

### Registration of Births, &c.

**BIRTHS.**—Persons should cause their children to be registered within forty-two days after birth, by giving personal notice to the registrar of their district, without any fee whatever. Legislation may be effected after the expiration of the forty-two days, and with- in six months, on payment of a fee of 7s. 6d.; but after six months no birth can be registered. 1) **MARRIAGES.**—Information should be given of deaths in the same manner as births. This is of importance to be done early, as the under- taker must have a certificate to give to the minister who reads the funeral service, with- out which he may refuse to bury the body. As the cause of death is to be entered, sound discretion should be exercised in ascertaining which nature of the deceased a death, for which important purpose every facility should be given.
